

Friday 15th March 2019

Messages:

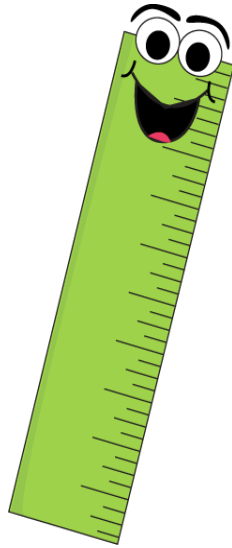

Assembly : Our class assembly is on Friday 29th March at 2:45pm.

Please ensure your book bag, spellings, homework book and reading book BY Thursday.

Maths

This week we started our unit 'Length and Height'. We compared objects using the language 'smaller, bigger, shorter, longer, taller'.

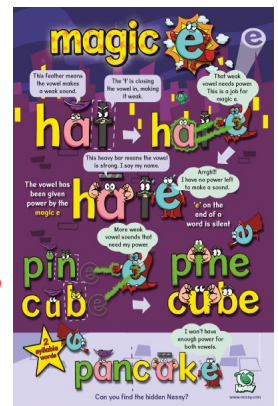

Next week we will be learning to measure using non standard units (cubes and other objects). After that we will move on to using standard units (rulers).

Phonics / Spellings

This week we practised *ir*, *ur* and *er*. We are now very secure with the *er* sounds and can even join all three diagraphs in our writing!

Next week we will be focusing on using split diagraphs. We will be revisiting all split diagraphs and learning how to use them in our writing.

English

This week we described the beasts we created last week. We focused on using adjectives and similes in our writing. After that we answered friendship applications to the Lonely Beast explaining why they would be a good friend using commas in lists.

Next week we will be planning and writing stories using the beasts we have designed.

Topic:

This week we went to the computing room to explore the new IPADS in our computing suite. We also painted pictures using paint on the computer.

Next week we will be looking at our body parts and labelling them. We will also be continuing our work on spring.

Homework:

Your homework this week is to complete the length and height sheet stuck in your homework book.

Have a great weekend.

Love Miss OBrien x
