

Year Two Weekly Update

Friday 22nd March

Messages:

Thank you for joining us for our class assembly. A huge well done to the children for a great assembly and well done, and thank you, to you all for helping the children learn their lines. A special thank you, also, to Lucy for making three gorgeous astronauts outfits.

REMEMBER revision guides are on sale now and should be paid for on School Money. You can then collect them from the School Office.

Maths:

This week we have been learning how to recognise non-unit fractions such as $\frac{3}{4}$ and $\frac{2}{3}$. We have also been learning how to find $\frac{3}{4}$ and $\frac{2}{3}$ of an amount.

Next week will be doing assessments all week so we will not be following any maths topic. This is so we can assess what the children know and where areas of weakness are so we can address them after the holidays.

Phonics / Spellings ;

This week we have been learning about possessive apostrophes. We have been learning that when you are writing about someones possession then you use an apostrophe before the 's'. We have also learnt that if you are talking about the possession of multiple things or people then you use the apostrophe after the s. For instance; If there are two cats then you would write, the cats' dinner.

Next week we will be assessing the childrens progress with their common exception words. We will assess the Y2 and Y1 words and for some children the Y3/4 words.

English:

This week we have written some nonfiction writing about Neil Armstrong and published this onto our own astronaut books.

Next week we will be using this time to assess their children writing skills and to conference with each child and explain tot them what they need to do to improve their writing further,.

Topic:

This week we have continues our learning about explorers, in particular Neil Armstrong. In Science we have also designed comic strips and posters to show how a plant grows. In Computing the children published their own information booklet about Neil Armstrong.

Next week, in topic we will be continuing learning about Neil Armstrong and comparing his life to Christopher Columbus. In Computing we will be doing some coding on the computers using Purple Mash.

Homework: Please continue to work through the work books which you have purchased. Please have a go at the section on Apostrophes page 8-9. If your child wants to bring their book to school for me to have a look at that is fine. Make sure their name is in it !

DONT FORGET TO READ YOUR ACCELERATED READER BOOK AND DO THE TEST ! (remember you can not access the test page on the website on a Saturday or Sunday),
