

What equipment and facilities do we have to assist our pupils with SEND?

The school works hard to ensure that no student is disadvantaged in terms of facilities and equipment dependent upon need. To ensure that we achieve this goal we work with outside professionals such as specialist teachers, occupational therapy and speech and language therapists. Our broad approach here is captured in our equality and disability policies which are available on our website or on request. Examples of equipment include and facilities include:

- Disabled toilet
- Ramps
- Sensory equipment/room
- Trampoline
- Pencil grips
- Sloping desks
- Software packages such as Clicker 6
- Specialist consideration for access arrangements for exams
- Access to specialist teacher input e.g. hearing impaired
